

NOTIFICATION – NO CONSUMER
PRODUCT SAFETY COMMISSION
COMPLIANCE CERTIFICATE REQUIRED
FOR THIS PRODUCT

**1. Products covered by this
certificate**

CLOTHING LABELS, EMBROIDERED
PATCHES AND WOVEN PATCHES (NON
METALLIC THREADS USED)

**2. Citation to CPSIA Product Safety
Regulations**

16CFR1303-(Lead Content)

3. Manufacturer:

Linx Corporation
P.O. Box 131508
Carlsbad, CA 92013
888-720-2115

**4. Contact Information
For Individual
Maintaining Test
Results:**

Dan Greenberg for
Linx Corporation.
sales@linxcorp.us
888-720-2115

**5. Location of
Manufacturer:**

Carlsbad, California USA

**6. Date and Location Of
Compliance Testing:**

Exempt from lead content testing “due to
dyed or undyed textile” as stated below.

WASHINGTON, D.C. - Starting on February 10, 2009, consumer products intended for children 12 and under cannot have more than 600 parts per million of lead in any accessible part. This new safety requirement is a key component of the Consumer Product Safety Improvement Act (CPSIA) aimed at further reducing children's exposure to lead.

In an effort to provide clear and reasonable guidance to those impacted by this important law, the U.S. Consumer Product Safety Commission (CPSC) is announcing its enforcement policy on the lead limits established by the CPSIA.

Manufacturers, importers, distributors, and retailers should also be aware that CPSC will:

*Not impose penalties against anyone for making, importing, distributing, or selling

**a children's product to the extent that it is made of certain natural materials, such as wood, cotton, wool, or certain metals and alloys which the Commission has recognized rarely, if ever, contain lead;

**an ordinary children's book printed after 1985; or

**dyed or undyed textiles (not including leather, vinyl or PVC) and non-metallic thread and trim used in children's apparel and other fabric products, such as baby blankets.

**7. Third-Party Testing
Laboratory:**

Not Applicable
